MONTHLY REPORT

**PIRACY AND ARMED ROBBERY
AGAINST SHIPS IN ASIA**

INCIDENTS OF PIRACY AND ARMED ROBBERY AGAINST SHIPS IN ASIA IN MAY 2018

OVERVIEW

A total of eight incidents of armed robbery against ships¹ were reported in Asia in May 2018. No piracy² incident was reported. There was also no report of abduction of crew in the Sulu-Celebes Seas and no hijacking of ships for theft of oil cargo.

MAY 2018

NUMBER OF INCIDENTS

In May 2018, a total of eight incidents (comprising of six actual incidents³ and two attempted incidents⁴) of armed robbery against ships were reported. All incidents have been verified and reported to the ReCAAP ISC by ReCAAP Focal Points and regional authorities. Refer to the Appendix on pages 16 –18 for the description of these incidents.

Compared to April 2018, the number of incidents reported in May 2018 has remained fairly consistent. Graph 1 shows the number of incidents reported each month from May 2017 to May 2018.

Graph 1 - Number of incidents (May 2017 to May 2018)

● Total ● Actual ● Attempted

1 Definition of armed robbery against ships is in accordance with the Code of Practice for the Investigation of Crimes of Piracy and Armed Robbery against Ships of the International Maritime Organisation (IMO) Assembly Resolution A.1025 (26). Refer to Appendix for detailed definition.
 2 Definition of piracy is in accordance with Article 101 of the United Nations Convention on the Law of the Sea (UNCLOS). Refer to Appendix for detailed definition.
 3 Actual incidents are incidents where pirates/robbers boarded the ship; and regardless of whether they stole any items from the crew or secured and unsecured items found on board the ship.
 4 Attempted incidents are incidents where pirates/robbers tried but failed to board the ship.

STATUS OF SHIPS

Of the eight incidents reported in May 2018, two incidents occurred on board ships while underway and six incidents on board ship at anchor.

SIGNIFICANCE LEVEL OF INCIDENTS

Of the six actual incidents reported in May 2018, one was a CAT 2 incident, one was a CAT 3 incident and four were CAT 4 incidents. There was no CAT 1 incident and majority of the incidents were CAT 4 (petty theft cases). Chart 1 shows the significance level of incidents reported in May of 2009 – 2018.

JANUARY-MAY 2018

NUMBER OF INCIDENTS

A total of 37 incidents were reported during January-May 2018 comprising 27 actual incidents and 10 attempted incidents. The number of actual incidents reported during January-May 2018 was the **lowest** during the 10-year reporting period. Graph 2 shows the number of incidents reported during January-May of 2009-2018. Compared to January-May 2017, the number of incidents reported during January-May 2018 remained fairly consistent. A total of 38 incidents comprising 31 actual and seven attempted incidents were reported during January-May 2017.

Graph 2 - Number of incidents (January-May of 2009-2018)

● Total ● Actual ● Attempted

Compared to January-May 2017, there was a decrease in the number of incidents at ports/ anchorages in the Philippines and in the Sulu-Celebes Seas during January-May 2018. A total of six incidents were reported at ports/anchorages in Philippines (five at Batangas and one at Zamboanga) during January-May 2017 compared to one incident reported at the South Harbour Anchorage, Manila during the same period in 2018. There was also a significant reduction in incident of abduction of crew in the Sulu-Celebes Seas during January-May 2018. Seven incidents (comprising three actual and four attempted incidents) were reported during January-May 2017 compared to one attempted incident during January-May 2018.

Notably, about one-third of the total number of incidents reported during January-May 2018 were attempted incidents. This indicates that ship master/crew and law enforcement agencies were relatively more successful in preventing boarding by perpetrators, likely as a result of factors such as timely reporting and vigilance of ship master/crew and immediate responses by the enforcement agencies.

Of the 10 attempted incidents reported during January-May 2018, four incidents occurred to ships while underway (in Straits of Malacca and Singapore, South China Sea and Sulu-Celebes Seas); and six incidents on board ships anchored/berthed at ports and anchorages (at Muara Berau Anchorage in Samarinda, Indonesia; Chittagong in Bangladesh, and Kolkata in India).

SIGNIFICANCE LEVEL OF INCIDENTS

Of the 27 actual incidents reported during January-May 2018, one was a CAT 2 incident, eight were CAT 3 incidents and 18 were CAT 4 incidents. Chart 2 shows the significance level of incidents reported during January-May of 2009-2018.

There was no CAT 1 incident reported during January-May 2018 compared to the same period of 2009-2017 (except 2013). The number of CAT 2 incidents was also the lowest during January-May of 2018.

SITUATION IN THE STRAITS OF MALACCA AND SINGAPORE (SOMS)

There has been an increase in the number of incidents in the Straits of Malacca and Singapore (SOMS) during January-May 2018 compared to the same period in 2017. A total of five incidents (comprising three actual incidents and two attempted incidents) were reported during January-May 2018 compared to two incidents (comprising one actual incident and one attempted incident) reported during the same period in 2017.

Of the five incidents reported during January-May 2018, three incidents occurred within the period of one month (April - May 2018). They occurred on 21 Apr 18 (bulk carrier, *Katerina*), 19 May 18 (tanker, *Front Ull*) and 19 May 18 (tug boat *Budget 19* towing barge, *Budget 29*); after two unsuccessful boarding reported in January 2018. The unsuccessful boarding occurred on 3 Jan 18 (bulk carrier, *Tiberius*) and 18 Jan 18 (workboat, *Marineco Tooma*).

The ReCAAP ISC advises all ships to exercise enhanced vigilance while underway in the SOMS particularly during hours of darkness and make timely report of all incidents to the nearest coastal State. On the part of the authorities, the relevant enforcement agency is encouraged to beef up surveillance and render assistance promptly to reports made by victim ships.

SITUATION IN INDONESIA

A total of 17 incidents (comprising of 15 actual incidents and two attempted incidents) were reported in Indonesia during January-May 2018 compared to 13 incidents (comprising 11 actual incidents and two attempted incidents) during the same period in 2017.

Most of the incidents reported during January-May 2018 occurred at Muara Berau Anchorage in East Kalimantan. Of the 17 incidents, eight incidents were reported at Muara Berau Anchorage, Samarinda in East Kalimantan, three off Pulau Batam, two in Panjang/Tarahan Anchorage, and one each at Taboneo Anchorage in Banjarmasin, South Kalimantan, Tg Priok Anchorage in Jakarta, Tg Uban Anchorage in Pualu Bintan and Merak Anchorage in Java. The location of the incidents is shown in Map 3.

During January-May 2017, 13 incidents were reported with five occurred in Dumai Anchorage, four in Muara Berau Anchorage, one each in Taboneo Anchorage, Tg Priok Anchorage, off Pulau Batam and Merak Anchorage. The ReCAAP ISC commends the improvement at Dumai Anchorage during January-May 2018 with no report of incident since January 2018.

SITUATION ON ABDUCTION OF CREW FROM SHIPS IN THE SULU-CELEBES SEAS AND WATERS OFF EASTERN SABAH

There was no report of actual or attempted incident of abduction of crew from ships while underway in the Sulu-Celebes Seas and waters off eastern Sabah in May 2018. The last actual incident reported to the ReCAAP ISC occurred on board *Super Shuttle Tug 1* on 23 Mar 17; and the last attempted incident occurred on board *Kudos 1* on 16 Feb 18. As of 31 May 18, nine crew is still held in captivity⁵. The Philippine authorities continue to conduct pursuit operations and intensify its military operations to rescue the abducted crew and neutralise the militant group.

On 1 May 18, the ReCAAP ISC received information from the Philippine Coast Guard (ReCAAP Focal Point) about a planned kidnapping by members of the Abu Sayyaf Group. The information stated that the group would be using a blue 3-engine speed boat and expected to be underway to Sabah within the next 24 hours. Upon receipt of the information, the ReCAAP ISC issued a Warning to advise ships to exercise extreme caution when transiting in the waters in Lahad Datu, Sabah and surrounding waters in Sabah.

As the threat of abduction of crew in the Sulu-Celebes Seas is not totally eradicated, the ReCAAP ISC maintains its advisory issued via the *ReCAAP ISC Incident Alert* dated 21 Nov 16 to all ships to re-route from the area, where possible. Otherwise, ship masters and crew are strongly urged to exercise extra vigilance while transiting the Sulu-Celebes Seas and eastern Sabah region, and report immediately to the following Centres:

⁵ Since March 2016 (till May 2018), a total of 61 crew had been abducted. Of these, 28 had been released, 17 rescued, seven killed and nine are still in captivity.

CONCLUSION

The situation of piracy and armed robbery against ships in Asia during January-May 2018 remained fairly consistent compared to the same period in 2017. A total of 37 incidents (comprising 27 actual and 10 attempted incidents) were reported during January-May 2018 compared to 38 incidents (comprising 31 actual and seven attempted incidents) reported during January-May 2017. The number of actual incidents reported during January-May 2018 was the lowest during the 10-year reporting period (January-May of 2009-2018). There was no abduction of crew in the Sulu-Celebes Seas and no hijacking of ships for theft of oil cargo in May 2018.

However, of concern is the continued occurrence of incidents in the Straits of Malacca and Singapore (SOMS). Two incidents (both CAT 4) were reported on 19 May 18, bringing the total number of incidents in SOMS to five during January-May 2018 compared to two incidents reported during the same period in 2017.

The ReCAAP ISC reiterates the need for port authorities to maintain enhanced port security measures, and advises ships transiting areas of concern to exercise enhanced vigilance, maintain look-out for suspicious boats, report all incidents to the nearest coastal State and flag State immediately, and implement preventive measures recommended in the *Regional Guide to Counter Piracy and Armed Robbery against Ships in Asia*.

APPENDICES

Definitions & Methodology in Classifying Incidents

Definitions

Piracy, in accordance with Article 101 of the United Nations Convention on the Law of the Sea (UNCLOS), is defined as:

1. "Piracy" means any of the following acts:
 - (a) any illegal act of violence or detention, or any act of depredation, committed for private ends by the crew or the passengers of a private ship or a private aircraft, and directed:
 - (i) on the high seas, against another ship, or against persons or property on board such ship;
 - (ii) against a ship, persons or property in a place outside the jurisdiction of any State;
 - (b) any act of voluntary participation in the operation of a ship or of an aircraft with knowledge of facts making it a pirate ship or aircraft;
 - (c) any act of inciting or of intentionally facilitating an act described in subparagraph (a) or (b).

Armed Robbery Against Ships, in accordance with the Code of Practice for the Investigation of Crimes of Piracy and Armed Robbery against Ships of the International Maritime Organisation (IMO) Assembly Resolution A.1025(26), is defined as:

2. "Armed robbery against ships" means any of the following acts:
 - (a) any illegal act of violence or detention, or any act of depredation, or threat thereof, other than an act of "piracy", committed for private ends and directed against a ship, or against persons or property on board such ship, within a State's internal waters, archipelagic waters and territorial sea;
 - (b) any act of inciting or of intentionally facilitating an act described above.

Methodology in classifying incidents

To provide some perspective on incidents of piracy and armed robbery, the ReCAAP ISC evaluates the significance of each incident in terms of two factors – the level of violence and the economic loss incurred. The indicators for these two factors are as follows:

- A. **Violence Factor.** This factor refers to the intensity of violence in an incident, and the three indicators used to determine this are:
 - (1) Type of weapons used. Incidents of pirates/robbers who board a ship with no visible weapons are generally deemed as less violent compared to those equipped with pistols, knives, machetes, or other dangerous weapons. In cases where more sophisticated weapons are used, such incidents would be considered more violent.
 - (2) Treatment of the crew. Incidents where pirates/robbers kill or kidnap crew are deemed to be more violent compared to petty thieves who flee upon being noticed. Other cases could include threatening crew members, assault, or serious injury.

(3) Number of pirates/robbers engaged in an attack. As a rule, an incident where a larger number of pirates/robbers were involved would be considered more significant as having a large capacity (as well as probability) for use of force. A larger number of pirates/robbers may also indicate the involvement of gangs or organised syndicates rather than petty and opportunistic pirates who generally operate in small groups.

B. **Economic Factor.** This factor takes into consideration the type of the property taken from the ship. Cases of theft of cash or personal effects are generally less significant incidents compared to cases where the entire ship is hijacked either for the cargo onboard or theft of the vessel.

Using these indicators, the ReCAAP ISC classifies all incidents into one of the four categories to determine their overall significance.

Category	Description
<p>CAT 1</p>	<p>CAT 1 incidents involved large number of perpetrators; more than 9 men in four out every 10 incidents and 4-9 men in the other six incidents. The perpetrators were mostly armed with guns and knives, and the crew is likely to suffer some form of injury or physical violence such as being assaulted or tied up or threatened. In term of losses, the ship was either hijacked or the cargo on board was stolen, for example siphoning of cargo oil.</p>
<p>CAT 2</p>	<p>Majority of CAT 2 incidents involved 4-9 men who are likely to be armed with knives/machetes and in 1/4 of the incidents, armed with guns. The crew is likely to be threatened or held hostage temporarily to allow the perpetrators to steal the crew’s cash and ship’s property including engine spares. In a few cases, the crew suffered some form of injury or physical violence but less severe in nature compared to CAT 1 incidents.</p>
<p>CAT 3</p>	<p>v number of perpetrators involved in CAT 3 incidents usually involved groups of between 1-6 men. At times, the perpetrators were armed with knives/machetes/ others or other items such as sticks, rods, bats etc. The crew was not harmed, although there remains a small possibility that the crew could be subject to duress during the incident but not harmed physically. In almost half of the CAT 3 incidents, the perpetrators were unable to steal anything from the vessel, but in cases where losses were reported, stores and engine spares were the commonly targeted items.</p>
<p>CAT 4</p>	<p>The perpetrators were not armed and the crew not harmed. More than half of CAT 4 incidents involved 1-3 men who escaped empty-handed upon sighted by the crew.</p>

This classification of incidents allows the ReCAAP ISC to provide some perspective of the piracy and armed robbery situation in Asia.

1	<p>Berge K2 Ore/bulk/oil carrier Isle of Man 134693 9709506</p>	<p>24/04/18 1417 hrs</p>	<p>4° 58.25' N, 119° 37.90' E</p> <p>Approximately 6 nm west- southwest of Bongao Island, Philippines</p>	<p>A report from IMO GISIS stated that while transiting the Sibutu passage, two high speed crafts were sighted approaching <i>Berge K2</i>. As the boats closed to the ship, the crew saw a blue boat with two persons wearing face masks and a white boat with one person wearing a face mask. Two Philippine Naval patrol vessels contacted <i>Berge K2</i> via VHF channel 16. The high-speed boats closed to three cables from the ship, noticed the hardening of the ship, crossed the ship's stern and moved away. Accordingly, the ship had received cautionary advice from the Philippine Navy and Coast Guard Coast Watch as they were transiting the Sibutu passage. Incident was reported to Philippines Coast Guard, Philippines Navy, MMEA Putrajaya, FOC RMN, Marine Police Malaysia & ESSCOM.</p> <p>The PCG and Philippine Navy (PN), had verified and confirmed that the reported incident involving <i>Berge K2</i> was UNFOUNDED.</p> <p>The PCG emphasized that there was no information of incident involving <i>Berge K2</i> that was relayed by the PCG frontline units in the area nor they had advised and sent precautionary alert warnings to any vessel particularly during the stated period.</p>

Ship Name, Type of Ship, Flag, GT, IMO No.	Date Time	Location of Incident	Details of Incident
			<p>Likewise, the PN Littoral Monitoring Station (LMS) in Bonga had no entry of incident reported in its vessel transit record that transpired between 23 Apr 18 at 0800 hrs and 24 Apr 18 at 0800 hrs. Also, the PN's floating assets in the area disclosed that there was no "Ore Carrier" that had been challenged within the same period.</p> <p>With these validations made by both the PCG and the PN, the Philippine Focal Point reported to the ReCAAP ISC that this incident did not occur and therefore not considered an incident of piracy or armed robbery against ships.</p> <p>[ReCAAP Focal Point (Philippines)]</p>
